This EIG Financial Report is brought to you for free and open access by the Open Access Journals at DigitalCommons@WayneState. It has been accepted for inclusion in Elephant by an authorized editor of DigitalCommons@WayneState.

FINANCIAL REPORT AND ACKNOWLEDGMENTS

I. Elephant Newsletter No. 1 and No. 2.

An estimated amount of U.S. \$2,000+ was spent by the Department of Biology of Wayne State University and the editor toward the production of Elephant Newsletters 1 and 2.

II. Elephant No. 3. (Note: the name of this publication is now Elephant.)

Following the informal Elephant Interest Group (EIG) meeting during the 58th annual meeting of the American Society of Mammalogists, and the decision that a U.S. \$3.00 subscription be charged to help defray costs incurred by publication of Elephant Newsletters, more than 100 individuals and institutions have contributed toward the production of Elephant No. 3. Contributions ranged from U.S. \$1.00 to U.S. \$1,600.00; a total of U.S. \$2,419.54. Of this amount, U.S. \$819.54 was deposited in a special Wayne State University (WSU) account called "Elephant Research and Development" and the rest to be released from another WSU account.

Listed alphabetically below are the names of contributors toward the publication of Elephant No. 3. We would like to extend our deepest gratitude for the generosity of the contributors.

MISCELLANEOUS

THE AFRICAN ELEPHANT BIBLIOGRAPHY

The IUCN Elephant Survey and Conservation Programme (P.O. Box 54667, Nairobi, Kenya) has collected nearly 2,000 references dealing with aspects of African elephant ecology, research, and conservation. The references come from both published and unpublished sources. This probably represents the most comprehensive bibliography for the African elephant in the world.
