CAN **kids** GET COVID-19?

Kids CAN Get Covid-19

One study suggests kids might even carry more virus than adults!

Kids CAN Get Very Sick

One study found 2% of kids with Covid-19 were admitted to the ICU.

Infants get Covid-19 too

A review found children ages 0-18 months can get Covid-19 and show symptoms.

Kids HAVE symptoms

Kids can develop fever or cough. Severe cases even show respiratory/kidney failure.

Kids SPREAD Covid-19

One study identified family clusters as a major source of transmission.

Wear a mask!

You protect your family and others from Covid-19 when you and your child wear a mask.
