# Safe Disinfectant Usage with COVID-19

20%

Calls to poison control centers have **increased by 20%** as compared to years prior to COVID-19

**One in four** people reported at least one adverse health effect resulting from increased use of cleaners and disinfectants to prevent COVID-19

1 in 4

39%

**Over one third** of people admit to engaging in high risk behaviors when using cleaners and disinfectants to prevent COVID-19

## DON'T...

Wash fruits and vegetables with bleach

Use household cleaners on bare skin

Drink, gargle, or inhale household cleaners

## DO...

Always read and follow directions on the label

Avoid mixing chemical products

Wear eye and skin protection at all times

Store chemicals out of the reach of children
