WHAT PARENTS SHOULD KNOW ABOUT COVID!

Make a safety plan for your family

REPORTS SHOW:

7.3%

of all cases of COVID-19 in the United States reported to the CDC were among children (as of August 3rd, 2020)

INCIDENCE

A HIDDEN VIRUS

66%

Of children found with COVID-19 in a study on identifying the virus had unrecognized symptoms beforehand.

Adults have a higher chance of getting COVID-19 because many children have no signs of illness.

FAMILIES IN THE SAME HOME HAVE AN INCREASED RISK OF BECOMING SICK BY 10.5% COMPARED TO OTHERS.

BECOMING SICK

OUTBREAKS

↓↓↓42%

Research has predicted school closure can reduce outbreak size by 42%

HOW TO STOP THE SPREAD

Clean surfaces in the home, practice social distancing and get tested!
