SOCIOLOGICAL PRACTICE ASSOCIATION:

A Professional Organization of Clinical and Applied Sociologists

The SOCIOLOGICAL PRACTICE ASSOCIATION was established in 1978 as the CLINICAL SOCIOLOGY ASSOCIATION. It is an international organization of sociologists and other social scientists interested in applying sociological knowledge for positive social change. SPA members include sociotherapists, counselors, gerontologists, organizational developers, program planners, community organizers, policy planners on all levels including international practice, conflict intervention and impact assessment, and many others who practice, study, teach, or do research about direct intervention.

The Clinical Sociologist is essentially a change agent. Clinical Sociologists use a variety of techniques or methods in facilitating change. The field's value orientation is humanistic and multidisciplinary.
