The purpose of this form is to collect and organize project ideas for the Student Talent Exploration Program (STEP) within the Wayne State University Library System.

For full consideration, project ideas should:

- Provide a benefit to the library system, embrace our values, and further our mission.
- Provide a benefit to the student assistants.
- Embrace the purpose and goals of the STEP initiative:
  - Create student assistant positions that emphasize the development of professional skills and leadership competences.
  - Offer opportunities for student assistants to participate in a wide range of library-led initiatives.
  - Collaborate with internal and external partners to create and share a sustainable and successful model for student experiential learning.

Please briefly describe your idea. Project ideas will be reviewed by the STEP team in a timely matter. You may be contacted to discuss your proposal further.

*Submission does not guarantee the project can be accommodated through STEP.*
