The *Clinical Sociology Review* is published annually by the Michigan State University Press, in association with the Sociological Practice Association, a professional organization of clinical and applied sociologists. Abstracts of all articles appear in *Sociological Abstracts* and selected abstracts appear in *Social Work Research and Abstracts*.

Clinical sociology is the creation of new systems as well as the intervention in existing systems for purposes of assessment and/or change. Clinical sociologists are humanistic scientists who are multi-disciplinary in approach. They engage in planned social change efforts by focusing on one system level (e.g., interpersonal small group, organization, community, international), but they do so from a sociological frame of reference.

Clinical Sociology Review publishes articles, essays, and research reports concerned with clinical uses of sociological theory, findings or methods, which demonstrate how clinical practice at the individual, small group, large organization or social system level contributes to the development of theory, or how theory may be used to bring about change. Articles in the Review are generally expected to be relevant to intervention at some level. Articles may also be oriented to the teaching of clinical sociology. Shorter articles discussing teaching techniques or practice concepts may be submitted to the Teaching Notes Section or Practice Notes Section. Manuscripts will be reviewed both for merit and for relevance to the special interests of the Review. Full length manuscripts should be submitted to the Editor, Susan Brown Eve, Department of Sociology and Social Work, POB 13675, University of North Texas, Denton, TX 76203, (817) 565 2054 Teaching Notes should be submitted to the Teaching Notes Section Editor, Sarah Brabrant, Department of Sociology, POB 40198, University of Southwest Louisiana, LaFayette, LA 70504, (318) 235 7656. Practice Notes should be submitted to the Practice Notes Section Editor, H. Hugh Floyd, 426 Atherton Drive, Metairie, LA 70005, (504) 286-6301.

Manuscript submissions should follow the latest American Sociological Association style guidelines, including reference citation style, and should include an abstract. Suggested length for full length manuscripts is 20 pages double spaced, and for Teaching or Practice Notes, eight pages double spaced. There is a \$15.00 processing fee which is waived for members of the Sociological Practice Association. Send four copies of the manuscript to the appropriate editor. Final copies of manuscripts should be sent on a 5 1/4 inch IBM compatible disk, either in ASCII or a standard word processor text, preferably Word Perfect.

Books for consideration for review in the *Clinical Sociology Review* should be sent directly to the book review editor. Harry Cohen, Department of Sociology, Iowa State University, Ames, IA 50011; (515) 294-3591.

Subscription inquiries should be sent to the publisher: The Michigan State University Press, 25 Manly Miles Building, 1405 S. Harrison Road, East Lansing, MI 48823-5202. Correction: in *Clinical Sociology Review*, Vol. 9, "Combining Sociology and Epidemiology," pp. 87-105, the first author, Thomas Sachs Plaut, was listed as Thomas W. Plaut. The Editorial Board apologizes to Prof. Plaut for this error. The other authors, Suzanne Landis and June Trevor, were listed correctly.
