Professionalism
Conflict with Administrator

PROBLEM

Administrators tell one student what will be on exam but not the entire class.

SOLUTIONS

- Email/meet with the administrator who sent the information asking them to provide that pertinent exam material to the whole class through a means that is widely disseminated
- Meet with higher up administrators and student senate reps to have policy written that requires dissemination of that information to the whole class
- Draft policy that requires an outline for all exams in all classes to be provided to ensure equity
