

At today's visit, do you think your doctor had all the necessary information about your HS treatments (current and past)?

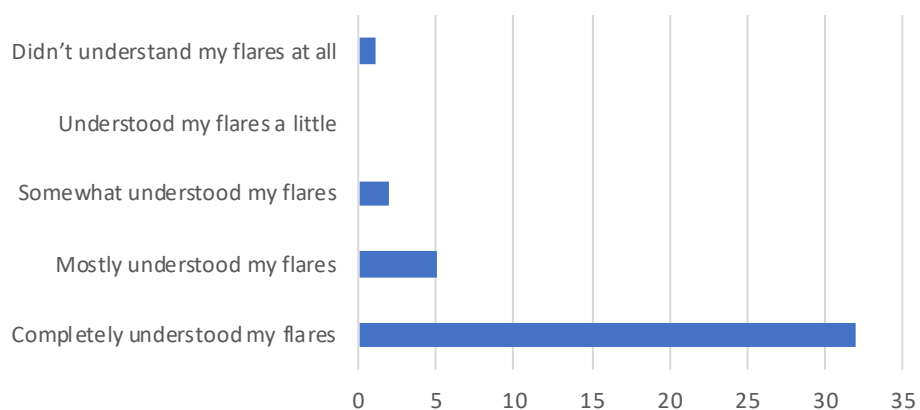

At today's visit, do you feel like you had the chance to discuss everything about your HS that you needed to?

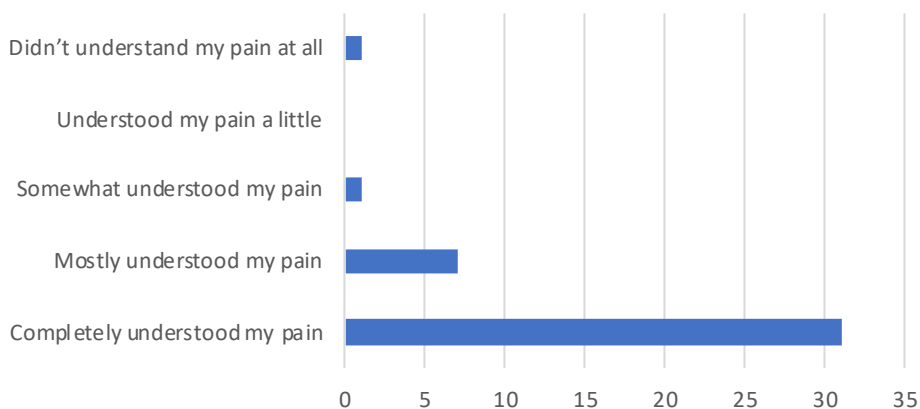

At today's visit, my doctor truly understood how my HS has been doing since my last visit (or in the past if this was your first visit).

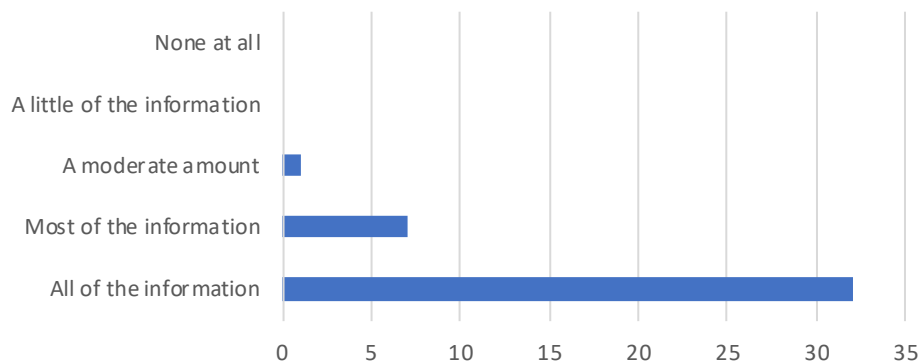

At today's visit, do you think your doctor understood your HS flares?

At today's visit, do you think your doctor understood your HS pain?

At today's visit, do you think your doctor had all the necessary information to make treatment decisions for your HS?

After your appointment today, do you feel like there were things you didn't discuss about your HS that may have been helpful for your doctor?
